Doc.-No. EIP-0067 -USA
Revision 2

Californian Proposition 65

MEGGLE Products:

- Lactose Monohydrate (USP-NF / Ph. Eur. / JP): GranuLac® 70 US, GranuLac® 140 US, GranuLac® 200 US
- Anhydrous Lactose (USP-NF / Ph. Eur. / JP): DuraLac® H

The above mentioned products are safe as pharmaceutical excipient and as food e.g. in food supplements.

Residues and contaminants in above mentioned products are monitored. The products as such or the used compounds comply with the relevant pharmaceutical monographs and relevant food laws and cause no significant risk of harm when they are used.

Substances known to the State of California to cause cancer or birth defects or other reproductive harm are not used for the production of above mentioned products. To the best of our knowledge, due to the highly refined and purified nature of the products no Proposition 65 chemicals are expected in the product.

Best regards

MEGGLE USA inc.
