Allergens

MEGGLE Products:

Lactose Monohydrate: Tablettose® 70, Tablettose® 80, Tablettose® 100, Tablettose® 100 MS

The MEGGLE Allergen Concept is an integral part of the installed HACCP System. The concept describes the scope of the considered allergens, working principles regarding presence of allergens in raw material, on equipment/production lines and during storage and transport as well as measures to prevent cross contaminations and information of customers about allergenic ingredients and potential allergenic cross contamination.

Allergens and products thereof	Present + Yes / - No		Cross- Contamination + Yes / - No N/A not applicable
	Material	Line

Lupins	-	-	-
Molluscs	-	-	-
Additional FAO/WHO-Allergens¹			
Buckwheat	-	-	-
Pine nuts	-	-	-

¹ Within prevalence group 1. See [here](#) for additional information.

The MEGGLE Products are manufactured on dedicated equipment for lactose and lactose-based excipients. Cleaning validation/verification incl. EU allergens is installed.

Changes regarding cross contamination status (Column "Cross Contamination") are in the scope of the installed Change Control System and are communicated.

This MEGGLE Information was electronically released and is valid without signature.
