Revision 2

Californian Proposition

MEGGLE Product: Reta M®

The above mentioned products are safe as pharmaceutical excipient and as food e.g. in food supplements. Residues and contaminants in above mentioned products are monitored.

The products as such or the used compounds comply with the relevant pharmaceutical monographs and relevant food laws and cause no significant risk of harm when they are used.

As such, the following Proposition 65 chemicals may be present in the compound Mannitol (Ph. Eur. / USP-NF / JP) at specification limits of:

NICKEL (metal catalyst): < 1 ppm (USP-NF monograph limit).

As such, the mentioned Proposition 65 chemical may be present in the product with < 0.5 ppm.

To the best of our knowledge, due to the highly refined and purified nature of the product no other Proposition 65 chemicals are expected in the product.

Best regards

MEGGLE GmbH & Co. KG
