Allergens

MEGGLE Product:

Co-processed Excipient: MicroceLac® 100

The MEGGLE Allergen Concept is an integral part of the installed HACCP System. The concept describes the scope of the considered allergens, working principles regarding presence of allergens in raw material, on equipment/production lines and during storage and transport as well as measures to prevent cross contaminations and information of customers about allergenic ingredients and potential allergenic cross contamination.

Allergens and products thereof	Present + Yes / - No		Line	Cross- Contamination + Yes / - No N/A not applicable
