## **Elemental impurities**

**Ph. Eur. General Text 5.20; USP-NF General Chapter <232> and <233>; ICH Guideline Q3D**

Meggle products:

- Lactose Monohydrate USP-NF / Ph. Eur. / JP: InhaLac<sup>®</sup> 70, InhaLac<sup>®</sup> 120, , InhaLac<sup>®</sup> 160, InhaLac<sup>®</sup> 230, InhaLac<sup>®</sup> 250, InhaLac<sup>®</sup> 251, InhaLac<sup>®</sup> 400, InhaLac<sup>®</sup> 500, Lactose monohydrate Low Endotoxin

In the production process of the above mentioned products, the elements classified in Class 1, 2A, 2B and 3 are not intentionally added in form of metal catalysts, metal reagents etc.

Permitted concentrations limits were calculated using the Permitted Daily Exposures and assuming a daily intake of the excipients of 100 mg (ICH Q3D, No 7 Option 2a). Acceptance levels were defined as 30% of the permitted concentrations.

Testing was conducted for the elements categorised as Class 1, 2A and 3 relevant for inhalative route of administration according to the ICH Guideline Q3D. Using bracketing principles several representative lots of the products were tested using ICP-MS method in conformance to USP-NF <233>. Testing method has been validated for the matrix of the products.

Representative results are shown for InhaLac<sup>®</sup> 251 and InhaLac<sup>®</sup> 500 on the table below. All results are far below 30% of the acceptance levels for inhalative application. In consequence, additional controls are not required.

MEGGLE has implemented an ongoing monitoring program for elemental impurities in accordance to the regime of the initial study performed.

Freundliche Grüße / Best regards

Dr. Stefan Dreiheller

## Elemental impurities – Summary Results

Ph. Eur. General Text 5.20; USP-NF General Chapter <232> and <233>; ICH Guideline Q3D

Material Name Lactose Monohydrate  
 Manufacturer Molkerei MEGGLE Wasserburg GmbH & Co. KG Megglestr. 6 – 12, 83512 Wasserburg, Germany except:  
 InhaLac® 400, InhaLac® 500: Micronisierungs-Kontor Oberrot GmbH, Industriestr. 17, 74420 Oberrot, Germany  
 Source/Type of Excipient Animal derived (Milk of bovine origin).  
 Route of administration (RoA) Inhalative

Date of issue: 26.07.2018
